## CORE CAPABILITIES

## 01 Operational Diagnostic Assessment

A structured, fixed-fee assessment of a contractor's operational system using systems engineering methodology. Identifies process gaps, compliance risks, interface failures, and execution vulnerabilities before they become program problems. Delivered as a clear, actionable findings package.

- Operational risk identification
- Interface failure mapping
- Execution readiness assessment
- Process gap analysis
- Compliance exposure review
- Findings & recommendations brief

## 02 Scoped Engagements

Fixed-scope delivery support for specific operational and execution challenges. Available as subcontract task orders with defined deliverables, fixed price on defined scope, or hourly NTE on ambiguous scope. Flexible execution schedule.

- Requirements development
- Risk assessment & tracking
- Execution readiness reviews
- SE/PM deliverable support
- Proposal technical support
- Process analysis & documentation
- Organizational redesign
- Technical writing & review

## 03 Fractional Advisory

Ongoing operational advisory for contractors who need a trusted SE/PM partner without the overhead of a full-time hire. Monthly async deliverable, defined touchpoint, hard scope boundary.

## ENTITY INFORMATION

Legal Name	Praetor Firm LLC
State	Texas
UEI	Z9Q5DU7PLL66
CAGE Code	20XU2
SAM.gov	Active

## NAICS CODES

### 541330

Engineering Services

### 541611

Administrative Management &amp; General Management Consulting

### 541690

Other Scientific &amp; Technical Consulting

## CERTIFICATIONS

- Small Business
- SDVOSB / VOSB

## DIFFERENTIATORS

- Systems engineering methodology applied to operational diagnostics
- Deliverable-based subcontract availability
- 9+ years defense SE & PM — Raytheon, Lockheed Martin
- Active security clearance
- Fixed-fee, defined-scope engagements — no open-ended retainers

## EXPERIENCE

- Army Officer — U.S. Military Academy, West Point
- Defense Systems Engineering — Raytheon, Lockheed Martin
- Program Management — Defense Contract Execution
- Operational Risk & Process Assessment
